2010 VARIETY & PRICE LIST

Dear Grower:

In forwarding our variety and price list for the year 2010, our 46th year of plant production, we would like to express our thanks for your business over the past years. We trust that we can be of service to you again in 2010. We should have a volume of fall-dug plants in storage, and the remainder will be harvested in early spring as dormant stock.

All our plants have been grown from foundation stock, under very careful supervision, in soil fumigated at sterile rate. These plants have been inspected throughout the growing season by officials of Agra Point International, Nova Scotia Department of Agriculture and Fisheries, and Agriculture and Agri-Food Canada. The plants will bear the Red Tag of Certification issued by the Nova Scotia Department of Agriculture and Fisheries.

We recommend ordering plants as soon as possible to reserve the varieties you want to plant. Orders are reserved on "first-come, first-served basis". Due to the ever-increasing costs of supplies and labour, we have found it necessary to revise our price list this year to reflect the rising costs of production. All prices now include packaging for shipping.

Plants are available in April, May and early June. Note that we will not hold orders after May 31, 2010, unless they are paid in full in advance. We recommend planting as early as possible in your area, before hot and dry weather sets in. We pack our strawberry plants in bundles of 26, allowing 4% extra to cover any errors in packing.

There will be a variation in plant size, but our experience proves that smaller plants will grow as well as large ones if cared for properly.

If you are picking up plants at our farm, be sure to bring something to cover them, to protect cold-stored plants from the sun. *DO NOT plant frozen plants.* They must be thawed out prior to planting. We recommend holding them in a cool area away from direct sunlight, until completely thawed, before planting. *We do not recommend herbicide use in home gardens.*

A LOT OF TENDER LOVING CARE WILL YIELD THE BEST RESULTS.

NORTH AMERICAN STRAWBERRY GROWERS ASSOCIATION

The NASGA has asked Strawberry Plant Nurseries in Canada and in the U.S.A. to assist in funding strawberry research. Our nursery has made a commitment to send \$1.00, for each 1,000 plants sold, to NASGA for use in research.

For more information about NASGA, please contact:
